One day International Webinar on :
"Business Analytics and Data Sciences for All"

By :

Date : 15th January2022
Saturday
Time : 2:30PM (IST) Onwards.

Shri Mahindar Singh
Chief Executive Officer
Bright Hat

Theme of the Webinar

- Business analytics includes data mining, predictive analytics, applied analytics and statistics, and is delivered as an application suitable for a business user. Data science is the study of data using statistics, algorithms, and technology. This field is a combination of traditional analytics practice with good computer science knowledge. The webinar will help you to understand the common business problems and application of various data sciences and business analytics tools
